## NATIONAL MEN'S MINISTRY DIRECTOR - EASTERN CANADA

I would like to take the opportunity to welcome everyone to our first National Men's Forum. This event has brought together men and young men from all four regions of Eastern Canada to gather together to discuss, acquire resources, and learn about topics focussed on relationship, motivation and mental health.

The Men and Young Men Alliance is our National Men's Ministry.

**Minister  
Kenold Knight**

Kenold is very passionate about mentorship and has worked with the big brothers and sisters' organization, and has been a mentor to many young people within the church and community.

He believes that God has called him into ministry, to work for the kingdom of God. He believes that a relationship with God is the most essential aspect of Christianity, and each person must work diligently on growing that relationship every single day. He aspires to love God with all his heart, his mind, and his soul. To love his neighbors as he loves himself for, that will guide him in being a great ambassador for Christ!

Rev. Dr. Timothy Quek has served for many years as Senior or Lead Pastor at various churches in the GTA. He received his PhD in Psychology at York University, Toronto, and was in private practice for 23 years prior to his migration into full time ministry.

His passion is in growing vibrant churches, the revival of churches in conflict or stagnation, the planting of new churches, and helping believers in Christ to walk the deeper life in Jesus. He lives in the City of Toronto with his wife, Bernice and their son, Daniel.

**Scott  
Anderson**

Scott has been a Marriage and Family Therapist in private practice since 1993. He completed his undergraduate studies in psychology and his master's level training in Marriage and Family therapy. As the Executive Director of LifeCare Centres since 2012, Scott provides vision, leadership and direction to the organization. Scott is passionate about developing his team at LifeCare to realize and reach their full potential. His desire is to equip them to reach out into our surrounding communities with counselling and psychological services of the highest quality and standard.
